

**City of Garden Grove
Development Impact Fee Annual Report
Fiscal Year 2018-2019**

The following is a report, which was prepared to comply with California Government Code Section 66006. This section requires an annual disclosure and review of collected development impact fees and expenditures. This review is prepared in compliance with the requirements of the code, and it was prepared with the assistance of the Public Works Department and Finance Department.

Government Code Section 66006(b) requires that within 180 days after the last day of the fiscal year the city shall make available the following information for that given year:

- A. A brief description of the type of fee, included as Section 1.0.
- B. The amount of the fee, included as Section 2.0.
- C. The beginning and ending balances of the fund and fees collected and the interest earned, included as Section 3.0.
- D. An identification of each public improvement on which the fees were expended and the amount of the expenditure on each improvement, including the total percentage of the cost of the public improvement that was funded with fees. This is included as Section 4.0.
- E. An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing of an incomplete public improvement, as identified in paragraph (2) of subdivision (a) of Section 66001, and if the public improvement remains incomplete. This is included as Section 5.0.
- F. A description of each inter-fund transfer or loan made from the account or fund including the public improvement on which the transferred or loaned fees will be expended, and the rate of an inter-fund loan, the date on which the loan will be repaid, and the rate of interest that the account or fund will receive on the loan. No transfers or loans were required or made.
- G. The amount of refunds made pursuant to subdivision (e) of Section 66001 and any allocations pursuant to subdivision (f) of Section 66001. No refunds were required or made.

Section 1.0. A Brief Description of the Type of Fee in the Account or Fund

Drainage Facilities Fee

As city lands are developed, hard surface areas (concrete/paving) increase and directly affect flooding citywide. A drainage fee is charged to fund local drainage improvements that are required to reduce the cumulative impact of increased runoff in the city.

Transportation Facilities Fee

Development increases the motorist population citywide and the cumulative increase requires constant improvements to meet the demands of the public. The Transportation Facilities Fee is charged to fund projects that relieve traffic congestion either in a specific location or citywide.

Water Assessment Fees

The fees reflect the cumulative impact of development on the water infrastructure. Water assessment fees are charged per (1) frontage and (2) acreage. The reasoning is that a property with a large frontage will benefit from additional street exposure, including landscaping and will place a greater burden on the water system as opposed to a similar sized parcel with a smaller sized frontage. The fee for acreage is to account for the increased demand placed on the water system by larger properties in general. Together, these fees fund capital projects that are required in order to meet the water needs of an increased population and to upgrade an aging infrastructure.

Parkway Tree Fee

City parkway trees are located throughout the city. The maintenance and care of the city's urban forest is an ongoing task that involves trimming, planting, removal, sucker removal, installation of root barriers, staking, etc. Additionally, hardscape items, such as curb, gutter, and sidewalk, need removal and replacement due to tree root damage. New development often removes mature trees as part of their project. This fee is collected to pay for the capital improvement costs associated with maintaining the city's parkway trees and adjacent hardscape. In this manner, the city's urban forest is maintained at a service level that is consistent with the public's expectations.

In Lieu of Parkland Dedication Fee (Quimby Park Fee)

The Quimby Act authorizes the City to require the dedication of parkland or to impose fees for park or recreational purposes as a condition of the approval of a tentative or parcel subdivision map. These fees are used for the purpose of developing new or rehabilitating existing neighborhood or community parks or recreation facilities. This fee is only applied to Subdivision Projects.

Mitigation Act Park Fee (Citywide Park Fee)

The City charges a Citywide Park Fee applicable to residential developments consisting of non-subdivisions. Consequently, residential developments not subject to the Quimby Park Fee (above) shall be required to remit a park fee as established by City Council for the purposes of providing citywide parks and recreational facilities.

Cultural Arts Fee

The city collects Art fees to construct various public art pieces and memorials and for conducting public events, such as the Open Streets annual event.

In Lieu Of Undergrounding Fee

This fee is collected in lieu of required utility undergrounding at the request of the developer. The fee will be used to underground overhead utility lines in conjunction with the City's Rule 20A program funded through Southern California Edison. This will maximize the city's resources and deliver a more cost effective project.
