WHEREAS, the City Council hereby makes the following findings regarding Amendment No. A-031-2021:

A. The proposed zoning text and map amendments are internally consistent with the goals, policies, and elements of the General Plan. Pursuant to General Plan Amendment No. GPA-003-2021, the City Council has adopted updates to the Housing Element and the Land Use Element to comply with the state law's 6th Cycle (2021-2029) of the Regional Housing Needs Assessment (RHNA) that requires the City to plan for 19,168 additional residential dwelling units for all incomes levels

during the planning period. Zoning Amendment No. A-031-2021 implements the Housing Element and Land Use Element Updates by increasing the maximum permitted residential densities within the City's Mixed Use Zones to be consistent with the mixed-use land use densities identified in the updated Land Use Element; creating a Mixed-Use Overlay Zone for properties located in the International West Mixed Use, the Industrial/Residential Mixed Use 1, and the Residential/Commercial Mixed Use 2 General Plan land use designations to promote housing production on selected parcels identified in the updated Housing Element Sites Inventory; and rezoning selected parcels identified in the updated Housing Element Sites Inventory to permit the development of multiple-family residential uses.

B. The proposed text and map amendments will promote the public interest, health, safety, and welfare of the surrounding community. Zoning Amendment No. A-031-2021 will implement the goals and policies of the Housing Element and Land Use Element Updates to promote housing production for all income levels in conformance with state law's 6th Cycle (2021-2029) of the Regional Housing Needs Assessment (RHNA) that requires the City to plan for 19,168 residential dwelling units during the 2021-2029 planning period.

C. The parcels subject to the proposed Zoning Map amendments are physically suitable for the requested land use designations, compatible with surrounding land uses, and consistent with the General Plan. The parcels proposed to be rezoned and the parcels to which the new Mixed Use Overlay Zone is proposed to be applied were evaluated in conjunction with the FGPUZA project and determined to be suitable for the development of housing and identified in the Housing Element Sites Inventory. In addition, the proposed zoning designation of each subject parcel is consistent with the land use designation of each parcel under the Land Use Element.

D. The change of zoning classification of the subject parcels identified in the proposed amendments to the Zoning Map is consistent with the City's General Plan and will ensure a degree of compatibility with surrounding properties and uses. The zone change amendments will rezone properties to be internally consistent with the goals and policies of the Land Use Element Update for promoting housing production for all income levels in conformance with State law and the 6th Cycle (2021-2029) Regional Housing Needs Assessment and will apply the new Mixed-Use Overlay Zone to specific properties located in the International West Mixed Use, the Industrial/Residential Mixed Use 1, and the Residential/Commercial Mixed Use 2 land use designations to promote housing production on selected parcels identified in the updated Housing Element Sites Inventory. The subject rezoned parcels will have a similar zoning designation as surrounding parcels, which will ensure that the parcels are developed to a similar density as the surrounding parcels with the same zoning designation.
