Garden Grove, CA 92840

RE: Homeless Navigation Center

Dear Mr. Stiles:

This letter is to affirm my commitment to bring before my Board of Supervisors (Board), a recommendation to contribute a one-time allocation of \$5.3 million with an annual contribution of \$625,000, for ten years, to support a regional navigation center located in the City of Garden Grove.

Per our discussion, the navigation center, with capacity to serve up to 100 individuals, will be used to support the needs of Garden Grove, Fountain Valley and Westminster, with an agreement in place for the cities to jointly fund the remaining acquisition, tenant improvements and the operating costs. We have also discussed the requirement for the navigation center to operate in compliance with the County's Standards of Care.

Once the City has a plan for site control, please contact me to discuss next steps, which will involve the negotiation of a Memorandum of Understanding (MOU) with the County. I want to ensure that I don't get ahead of you or the other cities as you discuss the matter with your councils. The MOU will require approval by each city then the Board of Supervisors.

Throughout this process, Doug Becht, Director of Care Coordination, and I are available to support you.

We look forward to this collaboration. Please do not hesitate to contact me or Doug with any questions or concerns.

Sincerely,

Frank Kim
County Executive Officer
