Vendor desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

3. PRICING

All Equipment, Products, or Services under this Contract will be priced as stated in Vendor's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. Vendor must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Vendor in breach of this Contract if the Vendor intentionally delivers substandard or inferior Equipment or Products. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Vendor as soon as possible and the Vendor will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

B. **SALES TAX.** Each Participating Entity is responsible for supplying the Vendor with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. **HOT LIST PRICING.** At any time during this Contract, Vendor may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Vendor may request Equipment, Product, or Service changes, additions, or deletions at any time. 7	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	Who Kubota is, and will continue to be, is summed up in this statement: Kubota is passionate about, and dedicated to food, water, and life. (Goro Shiro Kubota demonstrated this with the founding of Kubota in 1890 as a casting company to serve a critical need for safe drinking water. In 1893 Kubota produced the first ever domestic cast iron pipes. Following WWII food was in short supply in Japan. Kubota developed the cultivator, a pioneering piece of equipment in the mechanization of agriculture and the revolution of the production of food. With small villages in Japan suffering from labor shortages, Kubota developed our first tractor to provide a stable and abundant food supply. In 1969 Kubota Corporation filled a void in sub-compact tractors by introducing its first tractor into the United States. The Kubota Tractor Corporation was formed in 1972 as a privately held corporation of Kubota Corporation, Osaka, Japan. It has been growing and expanding its offering in the United States ever since. Kubota Tractor Corporation serves Kubota Corporation as distribution in the United States for Kubota equipment. This includes all the products serving this contract in turf mowing and grounds maintenance equipment, tractors, and attachments, as well as compact construction equipment which includes excavators, skid steers, backhoes, wheel loaders and utility vehicles. Additionally, Kubota Corporation has a wholly owned subsidiary in Canada (Kubota Canada Limited "KCL"). KCL supports Canadian sales and distribution. Innovating products since 1890, Kubota continues today to innovate and bring new products and technology into the marketplace. One example is Kubota's revolutionary common rail system with exhaust gas recirculation (EGR), and diesel particulate filter (DPF) muffler. This combination produces more torque at low rpm's with less emissions and better fuel efficiency. This innovation is used across our products where possible. Another example is our inventive glide steer technology, found on our GR series of mowers. These mowers also feature Reverse Awareness Systems (KRS) for additional safety when mowing in reverse. These are but a few examples in action of Kubota's philosophy of creating new and innovative products that are dedicated to preserving our environment and life. Kubota continues to innovate and serve its customers today with the number one selling sub-compact tractor, mini excavator, diesel utility vehicle, and diesel engine in the United States along with a varied and respected product offering. Kubota's core values of dedication to food, water and life are tied to serving our customers. Our company is committed to working for the development of society by drawing on all our capabilities and know-how to offer superior products and technologies. Kubota's business philosophy and primary objective is not sales and profits, rather, to win the trust of our customers and contribute to society in a growing number of ways. Everything we do is for the customer and this can be seen below in the "Kubota Promise". a. Produce state of the art, quality products b. Lead the industry in engineering and technological firsts c. Respect the environment and protect our customer's safety d. Provide uncompromising service e. Listen and respond to the customer's needs f. Value each customer relationship with integrity and respect g. Support professional dealers and retailers h. Manage with vision and leadership Since our founding in 1890, Kubota continues to be a global leader in the products we produce and the markets we serve. Food, water, and the environment are indispensable for human beings. Kubota is looking to the future to support earth and humanity. By contributing products, like the utility vehicles in this proposal, and creating a superior living environment through superior products, technologies, and services, Kubota is living out its core values and business philosophy of being passionate about, and dedicated to food, water, and life.

The process flow below describes both the Sourcewell member order process as well as the internal order process between Kubota and dealers.</p> <p>Sourcewell member process flow:</p> <ul style="list-style-type: none"> Sourcewell members contact their local Kubota dealer or Kubota Tractor Corporation directly for a quote. Additionally, Kubota dealers proactively marketing the Sourcewell contract may become aware of a need or quote request. If non-Sourcewell members request a quote, dealers have been instructed how to help prospective and qualifying non-members become a Sourcewell member. The local Kubota dealer will provide the existing or new Sourcewell member with a Kubota authorized Sourcewell quote. This quote is created using the Kubota authorized dealer quote tool. If Sourcewell members decide to move forward and acquire a Kubota product, Sourcewell members will issue a purchase order made to the Kubota dealer. The servicing dealer will fulfill the order either from their dealer inventory, or the dealer will order the product from Kubota in the event the product is not located in the servicing dealer inventory. The product is shipped to the Kubota dealer for the required inspections and any preparation needed for the Sourcewell member. Delivery is coordinated with the Sourcewell member and upon delivery, operating instructions are reviewed and dealers assist with all needs and questions by the Sourcewell member. Sourcewell member satisfaction is ensured before the process moves on. The process continues and turns internally between Kubota and dealers. <p>Kubota/Dealer process flow:</p> <ul style="list-style-type: none"> Dealers will settle the purchased unit indicating the sale is to a Sourcewell member in order to receive credit for the sale. The supporting dealer will provide Kubota the quote as well as the Sourcewell member purchase order for reference. Kubota will create quarterly reports for dealer sales to Sourcewell members. Kubota will submit this report to Sourcewell quarterly. Kubota makes payment to Sourcewell based on the agreed upon administrative fee. For reference, this process is the currently established process for Sourcewell contract 04319.
52	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Kubota dealers may, at their discretion, accept the P-card procurement and payment process. Kubota encourages dealers to accept the P-card and encourages Sourcewell members to consult with their local supporting dealer for participation.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Bid Number: RFP 031121

Vendor Name: Kubota Tractor Corporation

Line Item	Question	Response *
53	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Kubota will offer a specific discount from published list price for each series and product family in our proposed solution. These discounts from MSRP can be found in the supporting pricing documentation submitted in the documents step.
54	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	<p>Kubota will offer a specific discount from published list price for each series and product family in our proposed solution. These discounts from MSRP can be found in the supporting pricing documentation submitted in the documents step. The discount from published list price is as follows:</p> <ul style="list-style-type: none"> Tractors B series – 22% BX series – 22% L series – 22% M series – 22% Turf F series – 22% GR series – 22% T series – 22% Z series – 22% TLB series - B26, L47 & M62 – 22% Land Management Disc mowers – 22% Rotary tedders – 22% Rotary rakes – 22% Spreaders – 22%
55	Describe any quantity or volume discounts or rebate programs that you offer.	Kubota offers best and last pricing for individual units without requiring Sourcewell members to buy in volume or apply for rebates after the sale.
56	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Requests for open market "sourced" or non-standard items can be added to Sourcewell members quotes at their request. Acceptance of these quoted sourced/non-standard items will be at the discretion of Sourcewell members.
57	Identify any element of the total cost of acquisition that is NOT included in this response. For example, if the pricing in your response includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges, for example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Pre-delivery inspections and freight will be shown on all Sourcewell member quotes to ensure complete costs transparency prior to acquisition. These items will be shown clearly as line items on the quote form. All common accessories and attachments have a standard labor time associated with the installation of accessories. Dealer labor rate will vary due to regional economic differences (e.g. Seattle, WA labor rates are typically higher than Greenville, SC). Kubota reviews all dealer labor rate differences and ensures that all dealer rates are justified and compliant with normal regional economic conditions. Kubota strives to maintain a labor rate relative to \$100/hr. All charges will be turnkey solutions with no hidden costs and will be clearly identified on all Sourcewell members quotes prior to solution acquisition.
58	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Freight charges will be shown on every Sourcewell member quote prior to acquisition. Kubota's proposed solution includes many various models with great weight and size disparities (e.g. a BX1880 tractor weighs 1,407lbs, an M6 tractor weighs 11,387lbs). These will be shipped from east coast, west coast, and central US warehouses to all 50 states, territories, Canada, and wherever Sourcewell members are located. A flat rate charge to ensure costs are covered would be prohibitively and artificially high. Our solution is a freight pricing model of showing freight charges tailored by size, model, weight, to a specific location. This solution best address the logistical variances in supporting all Sourcewell members equally.
59	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	The freight pricing model for Alaska Hawaii, Canada, and all offshore deliveries will be to show all freight charges on Sourcewell member quotes. Freight in Canada by Kubota Canada Ltd. will follow this process. Freight for Hawaii and Alaska will be provided by a freight forwarder and shown on all quotes prior to acquisition.

Bid Number: RFP 031121

Vendor Name: Kubota Tractor Corporation

60	Describe any unique distribution and/or delivery methods or options offered in your proposal.	A unique aspect of Kubota's distribution method is having new forward inventory placed within our Kubota dealer network. Many products, attachments, accessories, and solutions are already in place and close to Sourcewell members within our 1,100+ location dealer network. This allows for Sourcewell members to visit local dealers and many times have a hands-on opportunity with a solution prior to acquisition. While Kubota does ship products from its three US warehouses (California, Georgia, and Kansas) and one in Canada (greater Toronto area), this access to solutions locally is an added benefit to Sourcewell members. Additionally, have a local, servicing dealer allows for specialization of products to meet local and unique Sourcewell member needs and requirements prior to delivery (e.g. dealers based in and familiar with local subzero winterization requirements).

61	b, the same as the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
62	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	Kubota self-audits multiple product group's regularly reviewing and auditing pricing along with our digital marketing group that manages our electronic pricing database. In addition, the National Accounts group regularly reviews dealer quoting for pricing accuracy. These multiple layers of self-audit and review elevate accuracy and compliance. Kubota dealers are not paid for their sales using the Sourcewell program without submitting all of the required information to report accurately on the Sourcewell contract usage reports. This information is in turn downloaded to create our usage reports for the Sourcewell program. This series of overlapping auditing for pricing and reporting drives contract compliance.
63	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Kubota proposes paying a 1.5% administrative fee of total sales less freight, assembly fees, and pre-delivery inspection fees for Kubota products only.

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *
64	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	<p>The solutions being proposed by Kubota are broad and encompassing of professional grounds maintenance requirements. Kubota's turnkey solutions of whole goods, equipment, attachments, accessories, and related services as they relate to grounds maintenance is well established around the world for both professionals and consumers. Kubota offers in this proposal turf management with walk-behind mowers as small as 21 inches in cutting width up to over 13 feet in cutting width using disc mowers and many various sizes in between. This solves for mower cutting jobs as small as imaginable while providing extensive cutting widths across the range of 21 inches to 13 feet.</p> <p>Our solutions solve for the smallest and tightest areas (zero turn mowers) in grounds maintenance in and around walkways, landscaping, lawn and garden maintenance, up through large tracts of acreage needing to be maintained. This proposal includes small walk behind mowers, small riding mowers, mid-size lawn and garden tractors, commercial zero-turn mowers in both gas and diesel. All of these products are built by Kubota and Kubota engineered for professional performance.</p> <p>This proposal also includes a wide variety of tractors, attachments, and accessories. These tractors range in size from 1,407lbs to 11,387lbs. This range empowers Sourcewell members with a comprehensive selection of tractors and attachments suited to their specific needs. The tractors come with a sweeping assortment of accessories and attachments. These include but is not limited to, loaders, backhoes, buckets, grapple buckets, snow blowers, sweepers, a wide range of mower decks and grass mulching and catchers, forklift attachments, straight blades, angled blades. The loaders and backhoe options in this proposal offer ground engaging ability to dig, push and move material in professional grounds maintenance. Fork lift attachments for tractors provide forklift capability for moving product as needed.</p> <p>Lastly, while our mowing solutions maintain small to medium land size, our land management solutions solve for maintenance of large expanse of acreage. This is done with next generation disc mowing that moves on from sickle bar mowing. Disc mowing is better suited to fine-stemmed grasses leaving a clean evenly maintained area. With our many models, sizes, and series, of disc mowers, tedders, rakes, etc., along with options, accessories, attachments, and services, this proposal is broad in scope and robust enough to support any professional grounds maintenance requirements.</p> <p>Along with the many various whole goods in this proposal is a long list of attachments, accessories, options, and services. These may be referred to as subcategories. The literature provided in additional documents shows these subcategories in better detail.</p>

Table 15: Industry Specific Questions

Line Item	Question	Response *
70	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Kubota produces multiple sales reports on a monthly basis including our sales volume numbers for the Sourcewell contract. Our main report is the National Accounts Month End report. This report lists all of our sales through the national accounts programs in terms of dollar volume and model mix. Kubota Executives, Middle Management and Field Sales reps review the report(s) and monitor their dealer and dealer group performance with the Sourcewell contract. We also produce a contract usage report that is sorted by Region Sales manager so that each RSM has visibility to the dealers under his responsibility that are and are not using the contract to its fullest potential. Corrective action in the form of sales training is created for underperforming dealers. Sourcewell is a specific call out line item on all National Account sales reports and is thoroughly reviewed by all levels of management for increased monthly/yearly performance.
71	Describe the serviceability of the products included in your proposal (parts availability, warranty and technical support, etc.).	Serviceability in the way of after sale support for Sourcewell members is easy and robust. With an extensive dealer network across the United States and Canada waiting to support Sourcewell members, the serviceability of the solutions proposed by Kubota is comprehensive. Local dealers will provide local expertise for parts, warranty work as well as regular service internals as needed. Our dealers are experts in our products. Sourcewell members will be able to sit down with these localized experts and map out any turnkey solution needed. Every Kubota dealer is required to have a factory trained technician on staff. To support this, Kubota dealers are required to participate annually in service school training. To also help ensure a high level of serviceability for parts, Kubota has added a parts component to measuring our dealers performance. The goal is to incentivize Kubota dealers to have parts on the shelf when needed. Parts on the shelf, factory trained technicians, and local experts in the solutions in this proposal ensure a high level of serviceability and dependability waiting for Sourcewell members.
72	Describe advancements reflected in the equipment or products offered in your proposal, such as safety, longevity or life cycle cost measures.	Advancements are ongoing and constant as is total operational improvement. Some examples of our advancements follow here. Kubota has developed Reverse Awareness Systems for our GR series of mowers. These advancements enhance safety when mowing in reverse. Regarding life-cycle and longevity, Kubota offers multiple year warranties as standard for many products. For products with standard one year warranty's, most all products have extended warranty's available to Sourcewell members. Another advancement is Kubota's exclusive "Swift-Tach" loaders which allow for safe and easy removal and installation. "Swift-Connect" backhoes are likewise designed and performance matched for ease and safety. Another example of an advancement is the industry-exclusive optional one-lever quick couplers found on the LX series of tractors in this proposal. Likewise is the industry-exclusive mechanical self-leveling kit for easier material handling capabilities. Kubota engines with their next generation common rail systems and electronic fuel injections are examples of advancements that improve fuel cost savings and environmental enhancement. Throughout Kubota's product offering, our products are engineered to provide durable long life that reduce down time as well as minimize lifetime costs. The previous are but a few of the product advancements that will serve Sourcewell members.
