1. PROBLEM STATEMENT

Garden Grove is a city located in the heart of Orange County California. With a 2023 population of 172,270, it is the 32nd largest city in California and the 164th largest city in the United States. Garden Grove is currently growing at a rate of 0.06% annually. Spanning over 18 miles, Garden Grove has a population density of 9,593 people per square mile. Garden Grove is 7th among the top cities of at least 100,000 people with the highest percentage of Asian-Americans. With only 172 sworn officers including administrative staff, that is a ratio of 1 officer per every 1,002 citizens spread over the highly densely populated 18 square miles. In regards to traffic enforcement, there are only 11 motor officers to patrol the 18 square miles and 172,270 residents, not including the patrons, visitors and working force within the city.

The City of Garden Grove is a unique City, given its population of just shy of 200,000 people, its continued growth and expansion, highly populated and expanding entertainment and resorts area, high traffic volume, and high tourism population. Garden Grove is a destination city and borders several large tourist attractions such as Disney Land, the Honda Center, Angel Stadium, and Knott's Berry Farm. Garden Grove is also home to the Christ Cathedral, once touted as the largest glass building in the world when completed in 1981, which seats 2,248 patrons as well as the Mosque of the Islamic Society of Orange County, which has the largest Muslim community in Southern California. The City of Garden Grove also has the State Route SR-22 freeway that runs the length of the city with the Interstate I-405 freeway on its western border and the Interstate I-5 freeway at its eastern border. With these highly populated areas, 51 youth education schools, and bordering main travel thoroughfares and freeways, we see an influx of highly populated roadways and ongoing traffic issues. Ultimately, this leads to more crashes and, unfortunately, more injuries and fatalities.

Traffic crash investigations continue to be one of the most common calls for service officers respond to within the city. In 2022 alone, the Garden Grove Police Department handled 1800 crash reports over the 365-day period, however this is only including crashes in which a report is taken. The Garden Grove Police Department has a policy in which drivers involved in crashes that do not involve any criminal activity, major injuries/ major property damage, or lack of licensed or insured drivers, are advised to exchange information and officers often do not respond. In these cases, no crash report is taken. Unfortunately, this means that there is a large number of crashes that take place within the city that are not documented and accounted for.

In many instances, cell phones and electronic communication devices are often found to be the cause of traffic crashes and traffic related injuries. The City of Garden Grove issued well over 1000 citations for distracted driver related offenses throughout 2022, which was an increase from the previous year when just over 700 citations were issued. This number only represents a fraction of the number of drivers throughout the city that are committing these violations. This continues to be the number one witnessed violation by patrol officers patrolling the roadways. Cell phone violations continue to plague the City of Garden Grove and distracted driving violations continue to be one of the most cited for violations by Garden Grove Police Department Officers.

During the typical work week, it is often difficult for motor officers to patrol all of the vital areas within the city in need enforcement activity. While working OTS Grant funded operations, motor officers are alleviated of the typical calls for service and focus all their enforcement activities on the areas in need of attention, specifically for enforcement related to identified primary crash factor violations in high crash areas. The community members and residents have expressed their gratitude on a regular basis for the extra enforcement activities conducted in the past and it has yielded a dramatic improvement in the statistical data collected thus far.

The city has seen a constant rising trend in alcohol/ drug related injury/non-injury vehicle crashes over the past five years. This trend is common amongst Orange and Los Angeles Counties. In the City of Garden Grove, there were 51 fatal traffic crashes between 2016 and 2020. Of those fatalities 29 of them have involved impaired drivers, as well as over 147 other injury traffic crashes involving impaired drivers. The Garden Grove Police Department understands the importance of stopping impaired driving as well as the impact these drivers can have on the community. One of our own officers, Officer Michael Rainford, was killed in the line of duty after being struck in a hit and run traffic crash by a drunk driver on November 7,

10/3/2023 11:55:53 AM Page **3** of **22**

1980. The negative effects of drinking and driving have struck our community on several occasions and the Garden Grove Police Department is committed to using all resources available to combat the problem. One person killed or injured as a result of an impaired driver making the decision to operate a motor vehicle is too much.

The City of Garden Grove has taken a zero-tolerance approach towards drunk/impaired driving over the five year period of time and have made over 1708 arrests and initiated several thousand citizen contacts related to DUI Investigations. The City of Garden Grove is committed to the safety of our citizens and has utilized DUI Checkpoints and DUI Saturation patrols as a means to deter, locate, and arrest alcohol/drug impaired drivers, as well as a means to provide educational opportunities to the members of the community. It is the goal of the Garden Grove Police Department to ensure that no individuals are injured or killed involving an impaired driver. The Garden Grove Police Department pledges to conduct thorough enforcement operations in an effort to make that goal a reality.

Through the opportunities granted to our department by the OTS STEP Grant, we continue our zero tolerance efforts towards the eliminating and alcohol/drug impaired driving. An effort is made to educate the community on the dangers of alcohol/drug impaired driving, the costs of being prosecuted for DUI/DUID, and alternative methods of transportation available to those that may consider driving while impaired using Press Releases and social media platforms.

Amongst the increasing crash statistics within the City of Garden Grove is motorcycle related injuries and deaths. The department looks forward to bringing back the motorcycle enforcement campaign to the city of Garden Grove, specifically to reduce the number of fatal and injury crashes involving motorcyclists. In the 2021 fiscal year, we had 3 motorcycle fatalities and 9 injured motorcyclists. In 2022, we had 2 motorcycle fatalities and 7 injured motorcyclists, however since October 1, 2022, we have already had 5 motorcyclists injured in traffic crashes. Traditionally, the winter season has been considered the "off-season" for motorcyclists due to weather constraints, however during this typical off season, we have already seen an increase in the number of crashes and fear that this trend will continue with more motorcyclists being injured or killed on the roadways. We feel that OTS funding specifically geared towards motorcycle safety and education will help prevent the riders throughout Garden Grove from becoming a statistic.

Although the City of Garden Grove has seen a decrease in fatal traffic crashes from 2021 into 2022, fatal traffic crashes and traffic crashes involving criminal prosecution have increased within the City of Garden Grove over the last several years. In 2021, the Garden Grove Police Neighborhood Traffic Unit responded to 16 fatal traffic crashes which resulted in 19 fatalities. In 2022, Garden Grove Police officers responded to 7 fatal traffic crashes involving 7 fatalities. During the first half of the 2023 grant cycle, the Garden Grove Police Department responded to 3 fatal traffic crashes which resulted in 3 fatalities, one of which is a Watson Murder case and is pending criminal prosecution.

Throughout the 2021 grant cycle, Garden Grove had a reported number of 4 Pedestrians killed and 62 injured as a result of traffic crashes. There was also 1 bicyclist killed and 38 injured as a result of traffic crashes. During the 2022 grant cycle, Garden Grove had a reported number of 1 pedestrian killed and 60 injured, and 0 bicyclists killed and 39 injured as a result of traffic crashes. Although the number has decreased slightly from 2021 to 2022, we have already seen an increase in the numbers as of January 30, 2023, with 2 pedestrians killed, 17 pedestrians injured, 0 bicyclists killed, and 10 bicyclists injured. Pedestrian travel is extremely popular throughout the city, with electric bikes and scooters gaining popularity daily. The Traffic Unit stresses pedestrian and bicyclist safety to our community, although it is not always the pedestrian's fault when they are struck by a motor vehicle. Traffic Officers utilize OTS pedestrian safety funding to hold safety events such as crosswalk enforcement where drivers are contacted and cited for failing to yield to pedestrians in marked and highly visible crosswalks. These types of events gain a lot of attention on social media and spread awareness to both pedestrians and drivers alike.

To educate the public, the Garden Grove Police Department embraces the opportunity to hold community traffic safety education programs. These programs, such as car seat safety events, bicycle safety events, drug safety events, and many others are utilized to educate our community about the dangers lurking the streets of Garden Grove and how to stay safe. Through these programs, it is difficult to calculate how many lives are saved, however the life of every person in attendance is affected in a positive light. Although we

10/3/2023 11:55:53 AM Page **4** of **22**

cannot quantify the effect that these programs have, they always receive positive feedback and participation from our community and are an essential asset to our department.

The City of Garden Grove is unique in that our community is very involved with our policing activities both in problem identification and problem solving. Through our continued partnership with our businesses, residents, and the general public, we are made aware of a multitude of concerns throughout our community that we would otherwise be ignorant to. Such issues include the most recent trend in criminal activity plaguing the streets of Orange County, Street Racing and Sideshow activities.

Car meetups with the intention of street takeovers, sideshows and drag racing have become a growing problem throughout all cities in Orange County. It has especially been amplified by the Coronavirus pandemic of 2020, gaining popularity and increasing in danger, and has continued to grow ever since. Several times a week during the weekday and weekend nights, car meets have taken over private property lots and intersections throughout our city where drivers perform dangerous sideshow maneuvers that put residents of Garden Grove in danger of getting hurt or even killed. These car meetups/sideshows also have ill effects on local business establishments and take away the potential for customers at these businesses and cause extensive amounts of damage to their properties. The Garden Grove Police Department has a zero-tolerance approach when it comes to street racing enforcement and saturates the area with a large police presence, conducting traffic enforcement education and citing drivers for various vehicle code violations, deterring the activity from continuing or reoccurring. The Garden Grove Police Department has assisted the Santa Ana Police Department and neighboring agencies to combat the ongoing problem of street racing, intersection takeovers and sideshows. Police departments throughout Orange County, including the California Highway Patrol, formed Strategic Traffic Enforcement Against Racing & Reckless Driving (STEARRD), a countywide law enforcement partnership to crack down on illegal street racing and street takeovers. This partnership includes Santa Ana PD, Garden Grove PD, and several other neighboring agencies. The goal and focus of the partnership are to combat illegal street racing and to protect city streets for safe passage of all travelers. This partnership was established in October of 2020. As a result, since August 14, 2022, a total of 2021 citations were issued, 66 misdemeanor arrests, 4 felony arrests (including one for possession of over 3 Kilos of cocaine), 22 State Referee referrals for emission violations, and 60 impounds were completed to combat the issue of street racing solely from Garden Grove PD Officers conducting enforcement activities on Thursdays, Fridays, Saturdays, and occasionally Sundays.

After the City of Garden Grove began forming partnerships with neighboring agencies, we began to expand those partnerships further by utilizing the collaborative effort OTS funding. We began speaking to our neighboring agencies and after seeing other agencies needs for assistance, OTS funds made it possible for our traffic unit to provide enforcement activities throughout Orange County when it otherwise would have not been possible. After partnering specifically with the Huntington Beach Police Department on multiple occasions, our Traffic Unit learned more about the clear importance and history behind the Know Your Limit Campaign and experienced the true effect that it has on the community. We were also able to assist outside agencies with specific enforcement needs, such as primary crash factor, street racing and loud exhaust violations, DUI Checkpoints, and several others. Orange County is special in the way that Officers often experience lateralling to different agencies more so than in other counties. With that, Officers bring a wealth of knowledge from the other agencies as well as a different way of coming to the same result, often more efficient. As a result of the collaborative efforts, outside agencies have already volunteered the same type of collaborative efforts for several of our own special events within our city which we normally struggle to provide staffing for. Collaborative efforts not only allow networking opportunities within the county, but we are confident that these partnerships help us gain ground on our shared goal of safer streets in our shared jurisdictions.

Although we have our obstacles in providing the safest roadways possible, the City of Garden Grove strives to do just that, and funding provided by OTS makes it all possible. In doing so, over the past few grant cycles, because of the success of the enforcement efforts through the OTS grant and their success rate in deterring DUI's and crashes, the City and our officers continued to work these enforcement programs even through the OTS funding had been exhausted. The City of Garden Grove saw the positive impact and officers continued to work towards the OTS goals and objectives and ultimately incurred costs that were paid for by the City's general fund. However, moving into the future, this may not be possible without the extended funding provided by OTS. With the additional funding, our officers are committed to maximizing the effect of the OTS campaigns and enforcement operations.

3. METHOD OF PROCEDURE

A. Phase 1 – Program Preparation (1st Quarter of Grant Year)

- The department will develop operational plans to implement the "best practice" strategies outlined in the objectives section.
- All training needed to implement the program should be conducted in the first quarter.
- All grant related purchases needed to implement the program should be made in the first quarter.
- In order to develop/maintain the "DUI BOLOs," research will be conducted to identify the "worst of
 the worst" repeat DUI offenders with a suspended or revoked license as a result of DUI
 convictions. The DUI BOLO may include the driver's name, last known address, DOB,
 description, current license status, and the number of times suspended or revoked for DUI. DUI
 BOLOs should be updated and distributed to traffic and patrol officers at least monthly.
- Implementation of the STEP grant activities will be accomplished by deploying personnel at high crash locations.
- Oral Fluid Drug Screening Devices The Grantee agrees to ensure all personnel using road-side drug testing equipment, including oral fluid drug screening devices, purchased with grant funds from this Grant Agreement, are trained to recognize alcohol and drug impairment. At a minimum, personnel using these devices should receive Standardized Field Sobriety Testing training. These personnel are also encouraged to attend Advanced Roadside Impaired Driving Enforcement and Drug Recognition Evaluator training. Prior to using these devices, the Grantee agrees to obtain permission from their local prosecutor's office, establish a policy ensuring appropriate use, and require the staff using these devices to receive appropriate training, which may include training from the manufacturer. This will help ensure the equipment is used appropriately. The Grantee shall advise the State (California Office of Traffic Safety) of any legal challenges or other items of significance that may affect the use or legal acceptance of these devices. Additionally, the State may request additional information about the performance of these devices, including information about their use, accuracy, and feedback from personnel using the devices.

<u>Media Requirements</u> Issue a press release approved by the OTS PIO announcing the kick-off of the grant by November 15, but no sooner than October 1. The kick-off release must be approved by the OTS PIO and only distributed after the grant is fully signed and executed. If you are unable to meet the

10/3/2023 11:55:53 AM Page **7** of **22**

November 15 deadline to issue a kick-off press release, communicate reasons to your OTS coordinator and OTS PIO.

B. Phase 2 - Program Operations (Throughout Grant Year)

• The department will work to create media opportunities throughout the grant period to call attention to the innovative program strategies and outcomes.

Media Requirements

The following requirements are for all grant-related activities:

- Send all media advisories, alerts, videos, graphics, artwork, posters, radio/PSA/video scripts, storyboards, digital and/or print educational materials for grant-related activities to the OTS PIO at pio@ots.ca.gov for approval and copy your OTS coordinator. Optimum lead time would be 7 days before the scheduled release but at least 3 business days prior to the scheduled release date for review and approval is appreciated.
- The OTS PIO is responsible for the approval of the design and content of materials. The agency understands OTS PIO approval is not authorizing approval of budget expenditure or cost. Any cost approvals must come from the Coordinator.
- Pre-approval is not required when using any OTS-supplied template for media advisories, press
 releases, social media graphics, videos or posts, or any other OTS-supplied educational material.
 However, copy the OTS PIO at pio@ots.ca.gov and your OTS coordinator when any material is
 distributed to the media and public, such as a press release, educational material, or link to social
 media post. The OTS-supplied kick-off press release templates and any kickoff press releases
 are an exception to this policy and require prior approval before distribution to the media and
 public.
- If an OTS-supplied template, educational material, social media graphic, post or video is substantially changed, the changes shall be sent to the OTS PIO at pio@ots.ca.gov for approval and copy to your OTS Coordinator. Optimum lead time would be 7 days prior to the scheduled release date, but at least 3 business days prior to the scheduled release date for review and approval is appreciated.
- Press releases, social media posts and alerts on platforms such as NextDoor and Nixle reporting
 immediate and time-sensitive grant activities (e.g. enforcement operations, day of event
 highlights or announcements, event invites) are exempt from the OTS PIO approval process. The
 OTS PIO and your Coordinator should still be notified when the grant-related activity is
 happening (e.g. car seat checks, bicycle rodeos, community presentations, DUI checkpoints,
 etc.).
- Enforcement activities such as warrant and probation sweeps, court stings, etc. that are
 embargoed or could impact operations by publicizing in advance are exempt from the PIO
 approval process. However, announcements and results of activities should still be copied to the
 OTS PIO at pio@ots.ca.gov and your Coordinator with embargoed date and time or with
 "INTERNAL ONLY: DO NOT RELEASE" message in subject line of email.
- Any earned or paid media campaigns for TV, radio, digital or social media that are part of a
 specific grant objective, using OTS grant funds, or designed and developed using contractual
 services by a subgrantee, requires prior approval. Please send to the OTS PIO at
 pio@ots.ca.gov for approval and copy your grant coordinator at least 3 business days prior to the
 scheduled release date.
- Social media posts highlighting state or national traffic safety campaigns (Distracted Driving Month, Motorcycle Safety Awareness Month, etc.), enforcement operations (DUI checkpoints, etc.), or any other grant-related activity such as Bicycle rodeos, presentations, or events, are highly encouraged but do not require prior approval.
- Submit a draft or rough-cut of all digital, printed, recorded or video material (brochures, posters, scripts, artwork, trailer graphics, digital graphics, social posts connected to an earned or paid media campaign grant objective) to the OTS PIO at pio@ots.ca.gov and copy your OTS Coordinator for approval prior to the production or duplication.
- Use the following standard language in all press, media, and printed materials, space permitting: Funding for this program was provided by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration.

10/3/2023 11:55:53 AM Page 8 of 22

- Space permitting, include the OTS logo on all grant-funded print materials, graphics and paid or earned social media campaign grant objective; consult your OTS Coordinator for specifics, format-appropriate logos, or if space does not permit the use of the OTS logo.
- Email the OTS PIO at pio@ots.ca.gov and copy your OTS Coordinator at least 21 days in advance, or when first confirmed, a short description of any significant grant-related traffic safety event or program, particularly events that are highly publicized beforehand with anticipated media coverage so OTS has sufficient notice to arrange for attendance and/or participation in the event. If unable to attend, email the OTS PIO and coordinator brief highlights and/or results, including any media coverage (broadcast, digital, print) of event within 7 days following significant grant-related event or program. Media and program highlights are to be reflected in QPRs.
- Any press releases, work plans, scripts, storyboards, artwork, graphics, videos or any
 educational or informational materials that received PIO approval in a prior grant year needs to
 be resubmitted for approval in the current grant year.
- Contact the OTS PIO or your OTS Coordinator for consultation when changes from any of the above requirements might be warranted.

C. Phase 3 – Data Collection & Reporting (Throughout Grant Year)

- 1. Prepare and submit grant claim invoices (due January 30, April 30, July 30, and October 30)
- 2. Prepare and submit Quarterly Performance Reports (QPR) (due January 30, April 30, July 30, and October 30)
 - Collect and report quarterly, appropriate data that supports the progress of goals and objectives.

More specifically, and without limiting the above general Assurance, the Recipient agrees with and gives the following Assurances with respect to its Federally assisted Highway Safety Grant Program:

- 4. The Recipient will insert the clauses of appendix B of DOT Order 1050.2A, as a covenant running with the land, in any deed from the United States effecting or recording a transfer of real property, structures, use, or improvements thereon or interest therein to a Recipient.
- 5. That where the Recipient receives Federal financial assistance to construct a facility, or part of a facility, the Assurance will extend to the entire facility and facilities operated in connection therewith.
- 6. That where the Recipient receives Federal financial assistance in the form of, or for the acquisition of, real property or an interest in real property, the Assurance will extend to rights to space on, over, or under such property.

 - a. the period during which the property is used for a purpose for which the Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits; or
 - b. the period during which the Recipient retains ownership or possession of the property.
- 9. The Recipient will provide for such methods of administration for the program as are found by the Secretary of Transportation or the official to whom he/she delegates specific authority to give reasonable guarantee that it, other recipients, sub-recipients, sub- grantees, contractors, subcontractors, consultants, transferees, successors in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the Acts, the Regulations, and this Assurance.
- 10. The Recipient agrees that the United States has a right to seek judicial enforcement with regard to any matter arising under the Acts, the Regulations, and this Assurance.

By signing this ASSURANCE, the State highway safety agency also agrees to comply (and require any sub-recipients, sub-grantees, contractors, successors, transferees, and/or assignees to comply) with all applicable provisions governing NHTSA's access to records, accounts, documents, information, facilities, and staff. CERTIFICATION FOR CONTRACTS, GRANTS, LOANS, AND COOPERATIVE AGREEMENTS

The undersigned certifies, to the best of his or her knowledge and belief, that:

- 1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement;
- 2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions;

The undersigned shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including subcontracts, subgrants, and contracts under grant, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

Such activities include both direct and indirect (e.g., "grassroots") lobbying activities, with one exception. This does not preclude a State official whose salary is supported with NHTSA funds from engaging in direct communications with State or local legislative officials, in accordance with customary State practice, even if such communications urge legislative officials to favor or oppose the adoption of a specific pending legislative proposal.

CERTIFICATION REGARDING DEBARMENT AND SUSPENSION

(applies to all subrecipients as well as States)

INSTRUCTIONS FOR PRIMARY TIER PARTICIPANT CERTIFICATION (STATES)

- 1. By signing and submitting this proposal, the prospective primary tier participant is providing the certification set out below and agrees to comply with the requirements of 2 CFR parts 180 and 1200.
- 2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective primary tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary tier participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
- 3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default or may pursue suspension or debarment.

Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate the transaction for cause or default.

A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any prospective lower tier participants, each participant may, but is not required to, check the System for Award Management Exclusions website (https://www.sam.gov/).
- 8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- 9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension or debarment.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION—LOWER TIER COVERED TRANSACTIONS

1. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency.

BUY AMERICA

(applies to subrecipients as well as States)

The State and each subrecipient will comply with the Buy America requirement (23 U.S.C. 313) when purchasing items using Federal funds. Buy America requires a State, or subrecipient, to purchase with Federal funds only steel, iron and manufactured products produced in the United States, unless the Secretary of Transportation determines that such domestically produced items would be inconsistent with the public interest, that such materials are not reasonably available and of a satisfactory quality, or that inclusion of domestic materials will increase the cost of the overall project contract by more than 25 percent. In order to use Federal funds to purchase foreign produced items, the State must submit a waiver request that provides an adequate basis and justification for approval by the Secretary of Transportation.

CERTIFICATION ON CONFLICT OF INTEREST (applies to subrecipients as well as States)

GENERAL REQUIREMENTS

No employee, officer, or agent of a State or its subrecipient who is authorized in an official capacity to negotiate, make, accept, or approve, or to take part in negotiating, making, accepting, or approving any subaward, including contracts or subcontracts, in connection with this grant shall have, directly or indirectly, any financial or personal interest in any such subaward. Such a financial or personal interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or personal interest in or a tangible personal benefit from an entity considered for a subaward. Based on this policy:

- 1. The recipient shall maintain a written code or standards of conduct that provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents.
 - a. The code or standards shall provide that the recipient's officers, employees, or agents may neither solicit nor accept gratuities, favors, or anything of monetary value from present or potential subawardees, including contractors or parties to subcontracts.
 - b. The code or standards shall establish penalties, sanctions, or other disciplinary actions for violations, as permitted by State or local law or regulations.
- 2. The recipient shall maintain responsibility to enforce the requirements of the written code or standards of conduct.

DISCLOSURE REQUIREMENTS

No State or its subrecipient, including its officers, employees, or agents, shall perform or continue to perform under a grant or cooperative agreement, whose objectivity may be impaired because of any related past, present, or currently planned interest, financial or otherwise, in organizations regulated by NHTSA or in organizations whose interests may be substantially affected by NHTSA activities. Based on this policy:

- 1. The recipient shall disclose any conflict of interest identified as soon as reasonably possible, making an immediate and full disclosure in writing to NHTSA. The disclosure shall include a description of the action which the recipient has taken or proposes to take to avoid or mitigate such conflict.
- 2. NHTSA will review the disclosure and may require additional relevant information from the recipient. If a conflict of interest is found to exist, NHTSA may (a) terminate the award, or (b) determine that it is otherwise in the best interest of NHTSA to continue the award and include appropriate provisions to mitigate or avoid such conflict.
- 3. Conflicts of interest that require disclosure include all past, present, or currently planned organizational, financial, contractual, or other interest(s) with an organization regulated by NHTSA or with an organization whose interests may be substantially affected by NHTSA activities, and which are related to this award. The interest(s) that require disclosure include those of any recipient, affiliate, proposed consultant, proposed subcontractor, and key personnel of any of the above. Past interest shall be limited to within one year of the date of award. Key personnel shall include any person owning more than a 20 percent interest in a recipient, and the officers, employees or agents of a recipient who are responsible for making a decision or taking an action under an award where the decision or action can have an economic or other impact on the interests of a regulated or affected organization.

PROHIBITION ON USING GRANT FUNDS TO CHECK FOR HELMET USAGE

(applies to all subrecipients as well as States)

The State and each subrecipient will not use 23 U.S.C. Chapter 4 grant funds for programs to check helmet usage or to create checkpoints that specifically target motorcyclists.

POLICY ON SEAT BELT USE

In accordance with Executive Order 13043, Increasing Seat Belt Use in the United States, dated April 16, 1997, the Grantee is encouraged to adopt and enforce on-the-job seat belt use policies and programs for its employees when operating company-owned, rented, or personally-owned vehicles. The National Highway Traffic Safety Administration (NHTSA) is responsible for providing leadership and guidance in support of this Presidential initiative. For information and resources on traffic safety programs and policies for employers, please contact the Network of Employers for Traffic Safety (NETS), a public-private partnership dedicated to improving the traffic safety practices of employers and employees. You can download information on seat belt programs, costs of motor vehicle crashes to employers, and other traffic safety initiatives at www.trafficsafety.org. The NHTSA website (www.nhtsa.gov) also provides information on statistics, campaigns, and program evaluations and references.

POLICY ON BANNING TEXT MESSAGING WHILE DRIVING

In accordance with Executive Order 13513, Federal Leadership On Reducing Text Messaging While Driving, and DOT Order 3902.10, Text Messaging While Driving, States are encouraged to adopt and enforce workplace safety policies to decrease crashes caused by distracted driving, including policies to ban text messaging while driving companyowned or rented vehicles, Government-owned, leased or rented vehicles, or privately-owned vehicles when on official Government business or when performing any work on or behalf of the Government. States are also encouraged to conduct workplace safety initiatives in a manner commensurate with the size of the business, such as establishment of new rules and programs or re-evaluation of existing programs to prohibit text messaging while driving, and education, awareness, and other outreach to employees about the safety risks associated with texting while driving.
