THE CITY COUNCIL FINDS AND DECLARES AS FOLLOWS:

WHEREAS, FG Solutions prepared a Water Rate Study on behalf of the City, which evaluated the Water Enterprise’s financing needs, determined the estimated funds needed to adequately finance the operations, capital improvements and debt obligations for the Water Enterprise, reasonably allocated the Water Enterprise’s projected revenue requirements to the various customer classes in accordance with their respective service requirements, and recommended a suitable schedule of water rates that produce revenues adequate to meet the Water Enterprise’s financial needs in accordance with estimated reasonable customer costs of service;

WHEREAS, Government Code Section 53756 authorizes any agency providing water service to adopt a schedule of fees or charges for a period not to exceed five (5) years authorizing automatic adjustments that pass through increases or decreases in wholesale charges for water established by another public agency from which it purchases water;

WHEREAS, the City Council has determined, based on the findings and recommendations of City Staff and FG Solutions and the legislative findings herein, that, in order to adequately finance the operations, capital improvements and debt obligations for the Water Enterprise, (i) annual adjustments to the Bi-Monthly Minimum Charge, the Capital Improvement Charge, Commodity Delivery Charge, and Private Fire Service Charge, set forth in Subsections (A), (B), and (C) of Section 14.12.010 and in Section 14.12.030 over a five (5) year period as recommended by FG Solutions should be authorized, and (ii) Subsection (F) of Section 14.12.010 should be re-adopted for automatic adjustments to the Commodity Delivery Charge for water usage that pass through future increases in wholesale water charges for a five (5) year period;

WHEREAS, the City Council has determined the following with regard to the rates and charges for water usage established by this Ordinance: (i) the fees and charges are not imposed as a condition of approval of a development project, as defined in California Government Code section 66001; (ii) the fees and charges are established upon a rational basis between the fees charged each customer and the service and facilities provided to each customer of the City's Water Enterprise; (iii) the revenues derived from the fees and charges do not exceed the estimated reasonable cost to provide the capital facilities and water services for which they are levied; (iv) the revenues derived from the fees and charges shall not be used for any other purpose than that for which the fees and charges are imposed; (v) the fees and charges do not exceed the proportional cost of the water service attributable to each consumer; (vi) the fees and charges are imposed on water services which are immediately available to the consumer; (vii) the fees and charges are not levied for general governmental services; and (viii) the rates and charges are not discriminatory or excessive, are sufficient under Government Code section 54515, comply the provisions or covenants of any outstanding revenue bonds of the City payable from the revenues of the Water Enterprise, comply with the provisions of the Revenue Bond Law of 1941 (Government Code 54300-54700), and are in compliance with all other applicable law;

WHEREAS, the City Council has determined that the authorization of annual adjustments to the rates and charges for water usage provided for herein is appropriate and represents increases in the rates and charges needed to adequately finance the operations, capital improvements and debt obligations for the Water Enterprise for those years;

WHEREAS, in accordance with Proposition 218 and Government Code Section 53755, Notice of a Public Hearing to consider the proposed adjustments in water rates and charges and containing such information required to be included pursuant to California law (the Proposition 218 Notice) was mailed to all record owners of affected property to the addresses as they appear on the latest equalized assessment roll and to all City customers located on the affected parcels at the addresses to which the City customarily mails the billing statements;

WHEREAS, on November 28, 2023, the City Council conducted the Public Hearing provided for in the Proposition 218 Notice, at which time the City Council heard all objections and protests to the proposed adjustments in water rates and charges;

WHEREAS, written protests against the proposed adjustments in water rates and charges were not presented by a majority of the property owners, as the total number of properties on which the rates are imposed as shown on the last equalized assessment roll of Orange County totaled 37,600 and the City received a total of [REDACTED] protests;

WHEREAS, pursuant to California Government Code section 66016 notice of the time and place of this hearing, including a general explanation of the matter to be considered and a statement that the data required by Government Code section 66016 is

available for public review at the City, was mailed to interested parties requesting notice at least fourteen (14) days prior to the hearing;

WHEREAS, pursuant to California Government Code section 66016 the City made available to the public the Water Rate Study and other data documenting the estimated costs required to provide services for which the proposed modified rates and charges will be levied and the revenue sources anticipated to provide the services;

WHEREAS, on November 28, 2023, in accordance with applicable legal requirements, the City Council conducted a duly noticed Public Hearing to consider the proposed adjustments in water rates and charges set forth herein, at which Public Hearing all those who wished to speak for or against the proposed adjustments in water rates and charges were heard; and
