Thy,

I'll do my best to answer your questions.

- 1) Dave Barlag will advise and report to the City Manager regarding a variety Public Safety matters. The most immediate need includes the presentation of several issues related to the desire to construct a new Fire Department Headquarters building on the former Black Angus site. Dave was previously involved in developing the building's final design, preparation of the construction drawings and construction cost estimates necessary to proceed with the building of the new headquarters facility. Dave will serve as the City's Project Manager on this project.
- 2) Dave's time serving as Project Manager will be funded through project development costs.
- 3) At this time, Dave is not expected to directly supervise employees. As part of his role as Project Manager for this project, Dave may have to coordinate with other City employees from the Planning, Building and Engineering departments.
- 4) Construction of the Fire Headquarters requires the City to contract with a private construction firm. Dave will serve as the Project Manager to coordinate efforts between the contractor and the City.
- 5) Mr. Barlag did retain an attorney and did threatened a lawsuit against the City. Litigation can be very expensive for the City and highly unpredictable. The Settlement Agreement was determined to be the most cost effective resolution of this matter.

I hope this information is helpful.

Matt

Hi Matt,

I'm doing a story with a 7pm deadline and had a few questions. Please let me know if you plan to respond.

- What are Dave Barlag's job responsibilities? Mayor Broadwater said he would be building and managing 2 fire stations.
- Where in the budget is this money coming from?
- Will Mr. Barlag be managing any employees? Who reports to him and is he a full-time employee?
- How might the construction of a fire station normally be done - in house, contracted out?
- Why wasn't Mr. Barlag offered a buyout rather than being retained?
- Did Mr. Barlag threaten the city with a lawsuit?
- I was told the city weighed the option of litigation by Mr. Barlag vs. retaining him – why would the cost of potential litigation be higher than the \$200,000 or more in salary and benefits he will be making otherwise?

Thanks for your time.

Best,

Mayor and City Council Members,

Please see the attached memo from Interim Fire Chief Hartley informing the City Council about the transfer of the Hazardous Materials Program from the Garden Grove Fire Department to the Orange County Health Care Agency in January 2015.

DUE TO BROWN ACT CONSIDERATIONS, PLEASE DO NOT SELECT "REPLY TO ALL" IF YOU ARE REPLYING TO THIS EMAIL.

INTER-DEPARTMENT MEMORANDUM

To: Matthew Fertal

From: Warren Hartley

Dept: City Manager

Dept: Fire

Subject: HAZARDOUS MATERIALS PROGRAM  
TO COUNTY

Date: November 13, 2014

OBJECTIVE

To inform the City Council about the release of the Hazardous Materials Program from the GGFD to the County Health Agency in January of 2015.

BACKGROUND

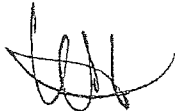

The Fire Department Hazardous Materials program was established in the late eighties as a way to identify and protect firefighters from hazardous substances within a building. In 1997 the Fire department Hazardous Materials Program was contracted by the Orange County Certified Unified Program Agency bringing more responsibilities to the Fire Department.

DISCUSSION

Due to a multitude of requirements from the State of California and the County of Orange the program has become very difficult for the Fire Department to manage at an optimum level of service. Therefore in the best interest of the Fire Department, the program is planned to be released to the Orange County (CUPA).

The Fire Department has met with the Orange County (CUPA) and a letter has been sent to the State to notify them of the City's intent to turn the Hazardous Material program over to the Orange County (CUPA). The transition date is set for January 2015.

The Fire Department will have access to all Hazardous Materials business records through the Orange County (CUPA) electronic portal. As part of the transition, the (CUPA) will provide formal training to all Fire Department personnel on how to access Hazardous Material information on each business.

Hi Gary,

Tell Roger I said hello too!

I'm sure you have seen the papers, lots of funny things going on, I still work for GG, Public Safety Administrative Officer, one of my duties is to push this station one project. Matt wants to push, Kingsley has the brakes on! We have a retreat scheduled for early December. This is going to be one of the main topics. Do you have a PDFs version of the early space utilization study that was produced in like 2007 or 2008? If you can dig up I would appreciate. We need to refresh a lot of new faces of the project, the scope and the timing issues that go along with it!

Maria,

Per the conversation yesterday, I reached out to Todd and I did some information gathering from documents that we had prior.

I also reached out to Griffin. Gary from Griffin is going to provide me with the information by Friday. Svetlana is going to bring some stuff over to your office today.

Not sure if a meeting would provide any real help, but I will be prepared to present the:

Space utilization study,

The phasing plan,

- 1) Fire Station relocation
- 2) police station remodel
- 3) housing relocation

Provide the last information about the latest cost estimates for phase 1.

How much time would you like to spend on this at the retreat and who is planning the agenda?

Bill,

In light of last weekend's generator issues at City Hall, my hope is that the building plans for the new fire station be revisited to include a generator large enough to power the new Fire station and City Hall, completely. Currently, the under sized City Hall generator only allows for a few hours of emergency lighting and critical I.S. server functions. Additionally, the diesel engine powering the unit is an older "dirty burn" engine, which eventually, will require an AQMD mandated particulate filter; costing thousands.

Hi all,

I think it would be prudent for Public Works, Police and Fire to meet sooner than later to determine the best plan moving forward. Travis had mentioned this morning perhaps sometime right after the Thanksgiving holiday. This episode provides us a good opportunity to comprehensively examine the issue of generators for both facilities and determine what our needs are. I think we need to put into place a plan that will allow us approx 72 hours of emergency power in the event of a natural disaster.

It is my understanding that this past weekend Edison was impacted by the winds in the Inland Empire, thus affecting their response time. In the event of an earthquake or other natural disaster, I think we need to plan on being self-sufficient for several days for mission critical equipment reliability.

Kingsley may also need to be in the discussion

Hey guys,

I met with Dave Barlag this week to go over some areas of responsibility as Public Safety Administrator . Since Dave was previously involved in the Ambulance RFP process, I asked Dave to continue leading that effort. Dave will contact Omar at Spradling and check on status.

Also, I want to move the Public Safety Master Plan forward. That includes the construction of a new Fire Department Headquarters on the former Black Angus site and then the remodel and expansion of the Police Administration Building. Again, since Dave was previously the lead on this project, I asked Dave to serve as Project Manager for the City on this project. I plan to list the Public Safety Master Plan on the upcoming Central Management retreat. I expect we will have a robust discussion.

Any questions or thoughts, give me a call.

As a follow-up to this morning's Central Management discussion, the public safety needs assessment from the 2009 City Council presentation is attached for your review and use as needed. The file was too large to email in PowerPoint format so I'll send Todd the presentation on a flash drive should PD need a version that can be edited.

Maria,

Here it is there are a couple of more slides, but they were scanned in so apparently they were too big to send.

The additional slides talk about the Public Private Partnership P3 financing. It will be included in the presentation.

There are three parts of the email, don't panic it's not that big.

Dave,

The presentation looks good. I'll go over it with Matt in the morning and we'll provide you with any feed back we may have as soon as possible.

Thanks!

Hi Dave,

The presentation as you have it prepared is great. We do not have any changes and will look forward to seeing you at the Retreat.

Have a good trip!
