Extensions of time and extra compensation as a result of incurring undisclosed utilities will be determined in accordance with Section 9-103A of the State of California Department of Transportation Standard Specifications. The CITY'S decision will be conclusive on all parties to this Contract.

The Contract price includes compensation for all work performed by CONTRACTOR, unless CONTRACTOR obtains a written change order signed by a designated representative of CITY specifying the exact nature of the extra work and the amount of extra compensation to be paid all as more particularly set forth

in Section 4.9 hereof. CITY shall extend the time fixed in Section 4.5 for completion of the Project by the number of days reasonably required for CONTRACTOR to perform the extra work, as determined by CITY'S Engineer. The decision of the Engineer shall be final.

4.9 Changes in Project.

4.9.1 CITY may at any time, without notice to any surety, by written order designated or indicated to be a change order, make any change in the work within the general scope of the Contract, including but not limited to changes:

- a. in the Specifications (including drawings and designs);
- b. in the time, method or manner of performance of the work;
- c. in the City-furnished facilities, equipment, materials, services or site; or
- d. directing acceleration in the performance of the work.

4.9.2 A change order shall also be any other written order (including direction, instruction, interpretation or determination) from the CITY which causes any change, provided CONTRACTOR gives the CITY written notice stating the date, circumstances and source of the order and that CONTRACTOR regards the order as a change order.

4.9.3 Except as provided in this Section 4.9, no order, statement or conduct of the CITY or its representatives shall be treated as a change under this Section 9 or entitle CONTRACTOR to an equitable adjustment.

4.9.4 If any change under this Section 4.9 causes an increase or decrease in CONTRACTOR'S actual, direct cost or the time required to perform any part of the work under this Contract, whether or not changed by any order, the CITY shall make an equitable adjustment and modify the Contract in writing. Except for claims based on defective specifications, no claim for any change under paragraph (4.9.2) above shall be allowed for any costs incurred more than 20 days before the CONTRACTOR gives written notice as required in paragraph (4.9.2). In the case of defective specifications for which the CITY is responsible, the equitable adjustment shall include any increased direct cost CONTRACTOR reasonably incurred in attempting to comply with those defective specifications.

4.9.5 If CONTRACTOR intends to assert a claim for an equitable adjustment under this Section 4.9, it must, within thirty (30) days after receipt of a written change order under paragraph (4.9.1) or the furnishing of a written notice under paragraph (4.9.2), submit a written statement to the CITY setting forth the general nature and monetary extent of such claim. The CITY may extend the 30-day period. CONTRACTOR may include the statement of claim in the notice under paragraph (4.9.2) of this Section 4.9.

4.9.6 No claim by CONTRACTOR for an equitable adjustment shall be allowed if made after final payment under this Agreement.

4.9.7 CONTRACTOR hereby agrees to make any and all changes, furnish the materials and perform the work that CITY may require without nullifying this Contract. CONTRACTOR shall adhere strictly to the Plans and Specifications unless a change therefrom is authorized in writing by the CITY. Under no condition shall CONTRACTOR make any changes to the Project, either in additions or deduction, without the written order of the CITY and the CITY shall not pay for any extra charges made by CONTRACTOR that have not been agreed upon in advance in writing by the CITY. CONTRACTOR shall submit immediately to the CITY written copies of its firm's cost or credit proposal for change in the work. Disputed work shall be performed as ordered in writing by the CITY and the proper cost or credit breakdowns therefor shall be submitted without delay by CONTRACTOR to CITY.

4.10 Liquidated Damages for Delay. The parties agree that if the total work called for under this Contract, in all parts and requirements, is not completed within the time specified in Section 4.5 herein, plus the allowance made for delays or extensions authorized under Section 4.7, 4.8 and 4.9 herein, the CITY will sustain damage which would be extremely difficult and impractical to ascertain. The parties therefore agree that CONTRACTOR will pay to CITY the sum of two hundred and fifty dollars (\$250.00) per day for each and every calendar day during which completion of the Project is so delayed. CONTRACTOR agrees to pay such liquidated damages and further agrees that CITY may offset the amount of liquidated damages from any moneys due or that may become due CONTRACTOR under the Contract.

4.11 Contract Price and Method of Payment. CITY agrees to pay and the CONTRACTOR agrees to accept as full consideration for the faithful performance of this Contract, subject to any subsequent additions or deductions as provided in approved change orders, the sum as itemized in the bid proposal. Progress payments shall be made to the CONTRACTOR per month for each successive month as the work progresses. The CONTRACTOR shall be paid such sum as will bring the total payments received since the commencement of the work up to ninety five percent (95%) of the value of the work completed, less all previous payments, provided that the CONTRACTOR submits the request for payment prior to the end of the day required to meet the payment schedule. The CITY will retain five percent (5%) of the amount of each such progress estimate and material cost until 30 days after the recordation of the Notice of Completion.

Payments shall be made on demands drawn in the manner required by law, accompanied by a certificate signed by the CITY'S Engineer, stating that the work for which payment is demanded has been performed in accordance with the terms of the Contract. Partial payments of the Contract price shall not be considered as an acceptance of any part of the work.

4.12 Substitution of Securities in Lieu of Retention of Funds. Pursuant to California Public Contract Code Section 22300, the CONTRACTOR will be entitled to post approved securities with the CITY or an approved financial institution in order to have the CITY release funds retained by the CITY to ensure performance of the Contract. CONTRACTOR shall be required to execute an addendum to this Contract together with escrow instructions and any other documents in order to effect this substitution.

4.13 Completion. CITY may require affidavits or certificates of payment and/or releases from any subcontractor, laborer or material supplier in connection with Stop Notices, which have been filed under the provisions of the statutes of the State of California.

4.14 Contractor's Employee Compensation.

4.14.1 General Prevailing Rate. CITY has ascertained CONTRACTOR shall comply with all applicable requirements of Division 2, Part 7, Chapter 1 of the California Labor Code and all applicable federal requirements respecting the payment of prevailing wages. INTER-DEPARTMENT MEMORANDUM

To:	Scott C. Stiles	From:	Laura J. Stover
Dept.:	City Manager	Dept.:	Human Resources
Subject:	Adoption of a Resolution amending the hourly rates of select part-time classifications to maintain compliance with state hourly minimum wage mandates. (<i>Action Item</i>)		
		Date:	12/13/2022

OBJECTIVE

This memo requests City Council approval for a resolution to amend the hourly rates of select part-time classifications to maintain compliance with state hourly minimum wage mandates.

BACKGROUND

On July 27, 2022, the Director of the California Department of Finance certified that based on the annual inflation rate from 7/1/2021 - 6/30/2022, the state hourly minimum wage must be increased in accordance with Labor Code section 1182.12(c) (3)(A). As such, effective January 1, 2023, the state hourly minimum wage will increase from \$15.00 an hour to \$15.50 an hour. Currently, the City's part-time salary rates meet the mandated minimum wage. However, as of January 1, 2023, the City will no longer be in compliance. Therefore, a study was conducted to determine the City's plan for complying with the changes in the state mandated minimum wage.

DISCUSSION

The City employs approximately 157 part-time employees, 53 of whom will be below the state minimum wage starting January 1, 2023.

An external and internal compensation survey was conducted to determine the appropriate wages for all part-time classifications to meet the state mandated minimum wage, remain competitive within the market to recruit qualified candidates, and maintain internal alignment within the organization. An increase to the City's part-time hourly wages for four (4) classifications are recommended in order to meet these goals. The classifications that are recommended to receive an adjustment are Police Cadet, Police Office Aide, Recreation Leader, and Recreation Specialist. It is

recommended that these four (4) classifications receive an increase of \$.80 per hour. The Resolution for part-time employees has been revised to include these changes and will be effective January 1, 2023.

FINANCIAL IMPACT

The estimated wage impact for the remainder of Fiscal Year (FY) 2022-23 is \$30,000. For FY 2023-24, the wage increases will be incorporated into the upcoming biennial budget.

RECOMMENDATION

It is recommended that the City Council:

- Approve the attached Resolution that amends the hourly rates for Police Cadet, Police Office Aide, Recreation Leader, and Recreation Specialist.

City of Garden Grove

INTER-DEPARTMENT MEMORANDUM

To:	Scott C. Stiles	From:	Amir El-Farra
Dept.:	City Manager	Dept.:	Police
Subject:	Adoption of a Resolution adopting the City of Garden Grove's Emergency Operation Plan (EOP). <i>(Action Item)</i>		
		Date:	12/13/2022

OBJECTIVE

To request City Council adopt the Garden Grove Emergency Operations Plan (EOP) and authorize Garden Grove Police department to submit the EOP to the Orange County Operational Area for approval by the State of California Governor's Office of Emergency Services (Cal OES).

BACKGROUND

The City original Emergency Operation Plan (EOP) was written in 2012 under the Garden Grove Fire Department. With the reassignment of the Fire Department to the Orange County Fire Authority, the emergency preparedness responsibilities were transferred to the Garden Grove Police Department. After the Police Department reviewed the emergency preparedness programs and responsibilities the Police Department identified gaps and inconsistencies within the existing EOP. TO rectify these issues in 2020 the Police Department applied for and was awarded a Public Safety Power Shutoff (PSPS) grant which supported the development of the revised EOP.

The Garden Grove 2022 EOP now establishes current policies, concepts, and response protocols as required by the California Standardized Emergency Management System (SEMS) and the National Incident Management System (NIMS) and addresses City specific hazards and how the City will respond during these extraordinary events or disasters, from the preparedness through recovery phase.

DISCUSSION

The California's Emergency Services Act (Government Code 8607[d]) requires the inclusion of SEMS in the City's EOP and outlines the use and activation of SEMS during emergencies. Under SEMS requirements it also identifies specific training and exercises required for Emergency Operations Center personnel and required training

for non-emergency City personnel. This EOP includes National Incident Management System (NIMS) requirements which identifies how the City fits into the Federal NIMS reporting structure. NIMS training and incorporation into the plan is also required to meet a number of federal grant requirements through FEMA.

This plan is consistent with the 2022 California Office of Emergency Services (CalOES) and FEMA EOP checklist and guidance and will be effective upon approval by the City Council. Following Council approval, the EOP will be submitted to the Orange County Operational Area for final approval with CalOES, and will be in effect for two years. The EOP must be revised once every two years.

A copy of the EOP is on file with the City Clerk's office and available electronically at:

FINANCIAL IMPACT

There is no financial impact.

RECOMMENDATION

- Adopt the Resolution adopting the City of Garden Grove Emergency Operation Plan (EOP); and
- Authorize the Police Department's Emergency Manager to submit the EOP to the State of California's Governor's Office of Emergency Services (Cal OES).

INTER-DEPARTMENT MEMORANDUM

To:	Scott C. Stiles	From:	Omar Sandoval
Dept.:	City Manager	Dept.:	City Attorney
Subject:	Public Hearing, Second Reading, and Adoption of Ordinance No. 2940 Adopting the 2022 California Building Standards Codes with Modifications.	Date:	12/13/2022

OBJECTIVE

For the City Council to conduct a public hearing for the second reading and adoption of Ordinance No. 2940 adopting the 2022 Edition of the California Building Standards Codes with certain amendments, and certain related Uniform Construction Codes, including findings supporting the modifications.

BACKGROUND

The State's Health and Safety Code establishes that the Uniform California Building, Fire and related construction Codes (Title 24, California Code of Regulations) as published by the California Building Standards Commission every 3 years, is the applicable codes for occupancies throughout the State. The Building Standards Commission published the 2022 California Building, Fire and related construction Codes earlier this year, and it becomes effective January 1, 2023. During this waiting period, local governments may adopt modifications that impose more restrictive building and fire safety standards when deemed necessary because of local climatic, geological, or topographical conditions, or when the revisions are purely administrative.

DISCUSSION

Ordinance No. 2940 adopts and amends the 2022 Editions of the California Building, Residential, Electrical, Mechanical, Plumbing, Energy, Fire, Existing Building, Green Building, and Referenced Standards Codes, adopted by the State of California; and adopts the 2021 Edition of the International Property Maintenance Code, and the 2021 Edition of the International Swimming Pool and Spa Code. The Building Division of the Community and Economic Development Department and Orange County Fire Authority are recommending changes and modifications to the 2022 California Building Standards Codes.

The proposed modifications are intended to increase safety to life and property from fire and other hazards. Many of the proposed modifications are carried over from previous code adoption and revisions.

Pursuant to state law, the City Clerk published notice of public hearing for two weeks after introduction of the ordinance at the November 15, 2022 City Council meeting. The City Council is required to hold a public hearing prior to adoption of the ordinance.

FINANCIAL IMPACT

None.

RECOMMENDATION

It is recommended that the City Council:

- Conduct the public hearing.
- After considering public testimony, conduct the second reading and adopt Ordinance No. 2940 adopting the 2022 California Building Standards Codes with modifications.

SECTION 11: Findings. Pursuant to the provisions of the California Health & Safety Code Section 17958.7, it is determined that the amendments of building standards within the California Building Standards Code in this Ordinance are reasonably necessary because of local climatic, geological, or topographical conditions, and as more specifically described below.

I. Climatic Conditions

- A. Garden Grove is located in a semi-arid Mediterranean type climate. It annually experiences extended periods of high temperatures with little or no precipitation. Hot, dry (Santa Ana) winds, which may reach speeds of 70 M.P.H. or greater, are also common to the area. These climatic conditions cause extreme drying of vegetation and common building materials. Frequent periods of drought and low humidity add to the fire danger. This predisposes the area to large destructive fires (conflagration). In addition to directly damaging or destroying buildings, these fires are also prone to disrupt utility services. Obstacles generated by a strong wind, such as fallen trees, street lights and utility poles will greatly impact the response time to reach an incident scene.
- B. The climate alternates between extended periods of drought and brief flooding conditions. Flood conditions may affect the Orange County Fire Authority's ability to respond to a fire or emergency condition. Floods may also disrupt utility services to buildings and facilities within the City.
- C. Garden Grove is in a suburban area which is fully developed. Water demand in this densely populated area far exceeds the quantity supplied by natural precipitation; and although the population continues to grow, the already-taxed water supply does not. California is projected to increase in population by nearly 10 million over the next quarter of a century with 50

percent of that growth centered in Southern California. Due to storage capacities and consumption, and a limited amount of rainfall future water allocation is not fully dependable. This necessitates the need for additional and on-site fire protection features.

- D. These dry climatic conditions and winds contribute to the rapid spread of even small fires originating in high-density housing or vegetation. These fires spread very quickly and create a need for increased levels of fire protection. The added protection of fire sprinkler systems and other fire protection features will supplement normal fire department response by providing immediate protection for the building occupants and by containing and controlling the fire spread to the area of origin. Fire sprinkler systems will also reduce the use of water for firefighting by as much as 50 to 75 percent.
- E. The local water supply is “hard” and contains high amounts of minerals which can negatively affect the plumbing used for supply and drain lines in buildings.
- F. Untreated wood roofs cause or contribute to serious fire hazard and to the rapid spread of fires when such fires are accompanied by high winds. Pieces of burning wooden roofs become flying brands and are carried by the wind to other locations and thereby spread fire quickly.

II. Topographical conditions

- A. Traffic and circulation congestion is an artificially created, obstructive topographical condition, which is common throughout the City.
- B. These topographical conditions combine to create a situation that places fire department response time to fire occurrences at risk and makes it necessary to provide automatic on-site fire-extinguishing systems and other protection measures to protect occupants and property.

III. Geological Conditions

Garden Grove is located in a highly active seismic area in Orange County. The Orange County region is a densely populated area that has buildings constructed over and near a vast and complex network of faults that are believed to be capable of producing future earthquakes similar or greater in size than the 1994 Northridge and the 1971 Sylmar earthquakes. Earthquake faults run along the northeast and southwest boundaries of Orange County. The Newport-Inglewood Fault, located within Orange County was the source of the destructive 1933 Long Beach earthquake (6.3 magnitude) which took 120 lives and damaged buildings in an area from Laguna Beach to Marina Del Rey to Whittier. In December 1989, another earthquake occurred

in the jurisdiction of Irvine at an unknown fault line. Regional planning for reoccurrence of earthquakes is recommended by the state of California, Department of Conservation.

- A. Previous earthquakes have been accompanied by disruption of traffic flow and fires. A severe seismic event has the potential to negatively impact any rescue or fire suppression activities because it is likely to create obstacles similar to those indicated under the high wind section above. The October 17, 1989, Santa Cruz earthquake resulted in one major fire in the Marina District (San Francisco). When combined with the 34 other fires locally and over 500 responses, the department was taxed to its fullest capabilities. The Marina fire was difficult to contain because mains supplying water to the district burst during the earthquake. This situation creates the need for both additional fire protection and automatic on-site fire protection for building occupants. State Department of Conservation noted in their 1988 report (Planning Scenario on a Major Earthquake on the Newport-Inglewood Fault Zone, page 59), "unfortunately, barely meeting the minimum earthquake standards of building codes places a building on the verge of being legally unsafe."
- B. Road circulation features located throughout the County also make amendments reasonably necessary. Located through the City are major roadways, highways and flood control channels that create barriers and slow response times. Street and storm drain design, accompanied by occasional heavy rainfall, causes roadway flooding and at times may make an emergency access route impassable.
- C. Portions of the County near Garden Grove contain active or former oil production fields. These areas contain a variety of naturally occurring gasses, liquids and vapors. These compounds present toxicity or flammability hazards to building occupants. Evaluation of these hazards and the risks they pose to development is necessary for implementation of appropriate mitigation.
- D. The viability of the public water system would be questionable after a major seismic event. This would leave tall buildings vulnerable to uncontrolled fires due to a lack of available water and an inability to pump sufficient quantities of any available water to floors above the 75-foot level.

Due to the topographical conditions of sprawling development separated by waterways and narrow and congested streets and the expected infrastructure damage inherent in seismic zones described above, it is prudent to rely on automatic fire sprinkler systems to mitigate extended fire department response time and keep fires manageable with reduced fire flow (water) resources available for a given structure. Additional fire protection is also justified to match the current

resources of firefighting equipment and personnel within the Orange County Fire Authority.

INTER-DEPARTMENT MEMORANDUM

To:	Scott C. Stiles	From:	William E. Murray
Dept.:	City Manager	Dept.:	Public Works
Subject:	Authorize the issuance of a purchase order to National Auto Fleet Group for four (4) new Public Works Department utility body trucks. (Cost: \$461,328.33) (<i>Action Item</i>)		
		Date:	12/13/2022

OBJECTIVE

To secure City Council authorization to purchase four (4) new Public Works Department utility body trucks from National Auto Fleet Group through the Sourcwell competitive bid program, Contract #091521-NAF.

BACKGROUND

The Public Works Department has four (4) trucks that currently meet the City's guidelines for replacement and were approved through the Fiscal Year 2022/23 budget process. These trucks are replacing vehicles from the Water Department, the Streets Division, and the Facilities Division. Experience has shown that the City's buying power is enhanced through joining with other public agencies to purchase fleet vehicles and equipment.

DISCUSSION

Sourcwell nationally solicits, evaluates and awards contracts through a competitive bid process. As a member of Sourcwell, the City is able to utilize bid awards for equipment purchases. Staff recommends piggybacking on the results of a recent Sourcwell competitive bid program, Contract #091521-NAF. The results deemed National Auto Fleet Group as the lowest responsive bid.

National Auto Fleet Group \$92,788.75*
Ford F-250 super cab (Water Department)

National Auto Fleet Group \$108,567.29*
Ford F-450 regular cab (Streets Division)
